

## Approach

- Survey of IS “Heads of Discipline” for each IS academic group in Australia conducted by email
- Limitations:
  - Slightly lower response rate than previous years (2016: 14 responses cf 2015: 15 responses)
  - Only ISHODS contacted
  - Active IS researchers in MBA schools not included. Also IS researchers attached to various specific discipline groups
- However, 14 responses probably covers about 55-65% of the IS population so is arguably representative

Slide 2

### Responses

- ANU
- Curtin
- Deakin
- ECU
- QUT
- RMIT
- SCU
- UniMelb
- UNSW
- UQ
- UniSA
- USC
- USQ
- VU

## Most Popular Research Topics

2004 Top Ten	2014 Top Ten	2015 Top Ten
Knowledge management	Organisational impact of IS	Theoretical underpinning of IS
Electronic commerce	Health Informatics	Health Informatics
Organisational impact of IS	IS Management/Strategy	IS Management/Strategy
Theoretical underpinnings of IS	Societal effects of IS	Societal effects of IS
IS management/strategy	IS Education	IS Education
IS adoption/diffusion	IS Security	Knowledge Management
IS security	Knowledge Management	Organisational impact of IS
Systems development	DSS/BI	IS Security
Societal effects of IS	IS Adoption/Diffusion	IS Adoption/Diffusion
CSCW/groupware	Theoretical underpinnings of IS	Electronic Commerce

Slide 25

## Research Topics – Others added to the list - 2015

- Big Data
- Business Analytics
- Green IT/IS
- IT Service Management
- Learning Analytics
- Research Systems

Slide 26

## Top Theories Utilised (Sometimes/Often/Always) (Max = 14) – 2015

11. Diffusion of innovations theory	12
6. Competitive strategy (Porter)	10
25. Socio-technical theory	10
27. Task-technology fit	10
1. Actor network theory	9
19. Organizational learning theory	9
24. Social network theory	9
29. Theory of planned behaviour	9
36. Design theories	9
4. Behavioural decision theory	8
8. Critical realism theory	8
10. Delone & McLean IS success model	8
14. General systems theory	8
16. Knowledge-based theory of the firm	8
28. Technology acceptance model	8

• For information on theories used in IS research: [http://istheory.byu.edu/wiki/Main\\_Page](http://istheory.byu.edu/wiki/Main_Page)

NEW: Cognitive Load Theory; Disruptive Innovation Theory; Dynamic Capability Theory;  
Natural Resource Based View Theory

Slide 27

## Research Paradigm 2015

	Never	Sometimes	Often	Always
Interpretivist	0	3	11	0
Positivist	0	2	11	0
Critical	1	10	1	0

OTHER: ACTION DESIGN SCIENCE; DESIGN SCIENCE

Slide 28

## Research Methods 2003/2014/2015

	Often/Always 2015 (Possible = 14)	Often/Always 2014 (Possible = 15)	Often/Always 2003
Survey	9	14	18
Interpretivist case study	7	9	12
Positivist case study	6	6	10
Design science	5	6	-
Conceptual study	5	6	5
Longitudinal case study	3	7	4
Literature meta analysis	3	5	3
IS Development	3	5	4

# WHAT JOURNALS DO WE PUBLISH IN?

Slide 32

## Journals and Journal Articles 2015 - overview

- 11 Australian universities' IS groups provided journal publication details
- 204.8 academic staff
- 217 journal articles published by authors from these groups
- Articles are being classified individually according to 2010 ERA rankings (in order to enable comparisons over time):
  - 0806 (Information Systems) A\*, A, B, C journals, and
  - other listed ERA journals (A\*, A, B, C, Not Ranked)

Slide 33

## Top Hits 2015

Australasian Journal of Information Systems	7	3.23%
Communications of the Association of Information Systems	6	2.76%
European Journal of Information Systems	4	1.84%
Information and Management	4	1.84%
Journal of the Association for Information Systems	4	1.84%
Journal of Information Technology	4	1.84%
IEEE Cloud Computing	4	1.84%
Information Systems Journal	3	1.38%
TOTAL	36	16.59%

Slide 34

### Senior Scholars' Basket of 8 in 2015

<b>Journal of the Association for Information Systems</b>	<b>4</b>	<b>1.84%</b>
<b>Information Systems Journal</b>	<b>3</b>	<b>1.38%</b>
<b>European Journal of Information Systems</b>	<b>4</b>	<b>1.84%</b>
<b>Journal of Strategic Information Systems</b>	<b>0</b>	<b>0.0%</b>
<b>Information Systems Research</b>	<b>1</b>	<b>0.46%</b>
<b>MIS Quarterly</b>	<b>1</b>	<b>0.46%</b>
<b>Journal of Information Technology</b>	<b>4</b>	<b>1.84%</b>
<b>Journal of Management Information Systems</b>	<b>1</b>	<b>0.46%</b>
<b>TOTAL</b>	<b>18</b>	<b>8.29%</b>

Slide 35

### Senior Scholars' Basket of 8 (2008 – 2015)

Slide 36

### Some key points in summary

- Small increase in staff (due to increase in Contract)
- More research active, PhD qualified, “supervised to completion” staff
- Small reduction in Doctoral Enrolments (both FT and PT) and Doctoral Graduates
- Fewer journal, conference and book chapters per capita. Journals higher per capita than conference papers (first time)
- Small reduction in mean research grants per department. Substantial grants are held by relatively few groups
- Journal publications spread across a wide selection of journals

Slide 37

### Follow-up

- Will accept late submissions
- Will accept further analysis suggestions
- Will place material on ACPHIS website [www.acphis.org.au](http://www.acphis.org.au)
- Any suggestions for future surveys welcome
  - Run survey online
  - Refresh survey design
    - Pro: Emerging issues can be addressed
    - Con: Trend analysis dating from 2003 may be compromised

Slide 38
